### 510K Release of Oxycodone

Branan Medical Corporation is pleased to announce the 510 (k) clearance of Oxycodone. Oxycodone will be available as stand-alone products in both Monitect<sup>®</sup> and Fastect<sup>®</sup> II formats starting mid-August. The part numbers are:

MF 23 Fastect<sup>®</sup> II Oxycodone (boxes of 50)  
MC 23 Monitect<sup>®</sup> Oxycodone (boxes of 25)

#### Background:

- Oxycodone is a synthetic opioid. Like heroin, it blocks pain messengers to the brain and central nervous system. It causes increased feelings of pleasure and euphoria. It is very addictive.
- It is similar to codeine, but is more potent and has a higher abuse and dependence potential.
- OxyContin<sup>®</sup> is manufactured by Perdue.
- A 40-milligram pill costs approximately \$4 by prescription, yet it may sell anywhere from \$20 to \$40 on the street.
- The National Drug Intelligence Center reports that OxyContin<sup>®</sup> abusers may often turn to heroin if they lose access to insurance or prescriptions.
- It is a growing problem across all demographic areas including your local neighborhoods and schools.
- It is also known as "hillbilly" heroin.
- The DEA is aggressively reaching out to educate the public, schools, the healthcare industry as well as state and local governments.

#### **Branan Medical Corporation Products: Fastect<sup>®</sup> II Oxycodone (MF23), Monitect<sup>®</sup> Cassette Drug of Abuse Test (MC23)**

##### The Facts

- The Fastect<sup>®</sup> II dipstick and The Monitect<sup>®</sup> cassette Oxycodone products are rapid, simple-to-use, and accurate.
- Both products are 510 (k) cleared.
- The Oxycodone cut off is 100 ng/ml.
- It is specifically manufactured to address this important drug of abuse.
- For the Fastect<sup>®</sup> II, time to result is fast; once the control band forms (in approximately 5 minutes), results are ready to interpret and are stable for up to 1 hour.
- For Monitect<sup>®</sup> cassettes, the results are read between 4-8 minutes.
- There is excellent correlation with GC/MS.

In terms of cost and convenience to your customers, either choice is an excellent one. Branan Medical Company's Monitect<sup>®</sup> or Fastect<sup>®</sup> II Oxycodone will provide your customer with accurate answers at reasonable prices.
